PO Box 1000
Beebe, AR 72012

Dear Dr. Methrin:

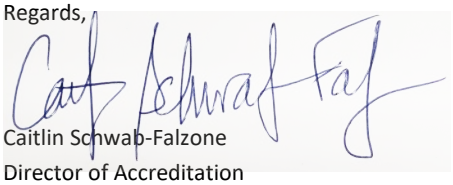
The ATMAE Board of Accreditation conducted hearings on accreditation requests on Wednesday, November 4, 2020. The progress report on your ATMAE-accredited programs was among those considered. We are pleased to notify you that the Board accepted the report submitted that addressed the partial compliances for the programs/options noted below:

- Associate of Applied Science - Agriculture Equipment Technology
- Associate of Applied Science - Computer-Aided Drafting & Design
- Associate of Applied Science - Computer Systems and Networking Technology

The programs will be eligible for ATMAE reaccreditation in 2024. We will send notices regarding future due dates. Meanwhile, it is the responsibility of each institution to inform ATMAE of material changes to accredited programs and of changes to the contact information for those handling ATMAE accreditation issues.

We hope that the accrediting services provided by ATMAE have been beneficial to your program and we look forward to your organization's participation in the development, implementation and evaluation of the appropriate standards for our profession.

Regards,



Caitlin Schwab-Falzone

1615 Stanley Street
New Britain, CT 06050

Dear Dr. Toro:

The ATMAE Board of Accreditation conducted hearings on Wednesday November 4, 2020 at which your request for programmatic accreditation was among those considered. We are pleased to notify you that the following program/options are granted ATMAE reaccreditation with a progress report due in two years:

- Bachelor of Science - Manufacturing Management
- Bachelor of Science - Industrial Technology
    - Option: Technology Management
- Bachelor of Science - Electronics Technology
- Bachelor of Science - Graphics Technology
- Bachelor of Science - Networking Information Technology

The two year progress report will need to address the partial compliances noted for standards 1 (self study report) 8 (transfer course work) 10 (administrative support & faculty qualifications), 15 (job advancement of graduates), 16 (employer satisfaction with job performance) and 18 (outcome measure to improve program).

The programs will be eligible for ATMAE reaccreditation in 2026. We will send notices regarding future due dates. Meanwhile, it is the responsibility of each institution to inform ATMAE of material changes to accredited programs and of changes to the contact information for those handling ATMAE accreditation issues.

We hope that the accrediting services provided by ATMAE have been beneficial to your program and we look forward to your organization's participation in the development, implementation and evaluation of the appropriate standards for our profession.

Dear Dr. Littleton-Steib:

The ATMAE Board of Accreditation conducted hearings on Wednesday November 4, 2020 at which your request for programmatic accreditation was among those considered. We are pleased to notify you that the following programs/options are granted ATMAE reaccreditation with a progress report due in two years:

- Associate of Applied Science - Civil & Construction Applied Engineering Technology
  - Option: Civil Construction
  - Option: Construction Management
- Associate of Applied Science - Computer Aided Design & Drafting
- Associate of Applied Science - Architectural/Design Construction Technology
- Associate of Applied Science - Computer Network Technology
- Associate of Applied Science - Electronics Service Technology
  - Option: Biomedical Equipment Repair
  - Option: Computer & Electronics Service Tech
- Associate of Applied Science - Computer Information Technology
  - Option: Information Security/ Assurance
  - Option: Programmer/Analyst
  - Option: Web Design
  - Option: Game Design

The following program/option was granted initial ATMAE accreditation with no further action, and has been approved to fall under the current accreditation status of the other programs and will be due for reaccreditation in six year:

- Associate of Science – Electrical Electronics Engineering Technology

The two year progress report will need to address the partial compliances noted for standards 9 (student enrollment) and 17 (advisory council approval of overall program).

The programs will be eligible for ATMAE reaccreditation in 2026. We will send notices regarding future due dates. Meanwhile, it is the responsibility of each institution to inform ATMAE of material changes to accredited programs and of changes to the contact information for those handling ATMAE accreditation issues.

Dr. M. Duane Nellis
Ohio University
Cutler Hall 108
Athens, OH 45701

Dear Dr. Nellis:

The ATMAE Board of Accreditation conducted hearings on accreditation requests on Wednesday, November 4, 2020. The progress report on your ATMAE-accredited programs was among those considered. We are pleased to notify you that the following program/option has been granted ATMAE reaccreditation with no further action at this time due to the program having satisfactorily met all ATMAE accreditation standards:

- Bachelor of Science - Engineering Technology & Management

The programs will be eligible for ATMAE reaccreditation in 2026. We will send notices regarding future due dates. Meanwhile, it is the responsibility of each institution to inform ATMAE of material changes to accredited programs and of changes to the contact information for those handling ATMAE accreditation issues.

We hope that the accrediting services provided by ATMAE have been beneficial to your program and we look forward to your organization's participation in the development, implementation and evaluation of the appropriate standards for our profession.

Dear Dr. Moore:

The ATMAE Board of Accreditation conducted hearings on Wednesday November 4, 2020 at which your request for programmatic accreditation was among those considered. We are pleased to notify you that the following programs/options have been granted ATMAE reaccreditation with a progress report due in two years:

- Associate of Applied Science - Drafting/Design Engineering Technology
- Associate of Applied Science - Graphics Technology

The two year progress report will need to address the partial compliances noted for standards 3 (program title, mission, and general outcomes), 4 (program goals), 5 (program learning outcome identification and validation), 7 (student admission and retention standards), 11 (facilities, equipment, and technical support), 13 (graduate satisfaction with program/option), 15 (job advancement of graduates), 16 (employer satisfaction with job performance), and 17 (advisory council approval of overall program).

The programs will be eligible for ATMAE reaccreditation in 2026. We will send notices regarding future due dates. Meanwhile, it is the responsibility of each institution to inform ATMAE of material changes to accredited programs and of changes to the contact information for those handling ATMAE accreditation issues.

We hope that the accrediting services provided by ATMAE have been beneficial to your program and we look forward to your organization's participation in the development, implementation and evaluation of the appropriate standards for our profession.

Dear Dr. Conway-Turner:

The ATMAE Board of Accreditation conducted hearings on Wednesday November 4, 2020 at which your request for programmatic accreditation was among those considered. We are pleased to notify you that the following program/options are granted ATMAE reaccreditation with a progress report due in two years:

- Bachelor of Science - Industrial Technology
  - Option: Manufacturing
  - Option: Quality

The two year progress report will need to address the partial compliances noted for standards 5 (program learning outcomes identification and validation), 12 (program/option operation), 13 (graduate satisfaction with program/option), 17 (advisory council approval of overall program, and 18 (outcome measures used to improve program).

The programs will be eligible for ATMAE reaccreditation in 2025, please note that one year of accreditation was lost due to an extension request that was granted for the programs by ATMAE in 2019. We will send notices regarding future due dates. Meanwhile, it is the responsibility of each institution to inform ATMAE of material changes to accredited programs and of changes to the contact information for those handling ATMAE accreditation issues.

We hope that the accrediting services provided by ATMAE have been beneficial to your program and we look forward to your organization's participation in the development, implementation and evaluation of the appropriate standards for our profession.
